PROPERTY DESCRIPTION

This 4 bedroom 2 1/2 bath home gives you a feeling of space. Greet your guests in the dramatic two story foyer, entertain in style with the formal dining room and living room with detailed moldings. The gourmet kitchen has a large island & ample counter space for preparing holiday meals & enough storage to impress Martha Stewart. The kitchen is open to the large family room, where you can gather the family around the wood burning fireplace. Even the garage is over-sized! The grand master suite has a spacious bedroom, glamour bath with tile floor & garden tub, as well as a walk in closet. The bonus room is big enough for all your toys and a home theater, with additional walk in storage. The back deck in the fenced yard has room to barbecue, dine & entertain at the same time, as it is bigger than a two car garage. This is an elegant home with room for everything.
